ABOUT

- I am a passionate and dedicated software developer with expertise in frontend, mobile, and backend development.
- With a strong foundation in various programming languages and frameworks, I excel in building efficient and innovative solutions.
- My experience includes working on diverse projects, from developing web applications to designing and implementing scalable systems.
- I am committed to continuous learning and staying updated with the latest industry trends to deliver high-quality software that meets users' needs.

EDUCATION

Inonu University   Malatya, Turkiye
Bachelor of Science in Computer Engineering, Honor Student, GPA: 3,24   *Sept. 2019 – Feb. 2024*

EXPERIENCE

Software Developer   May 2023 – Present
Ayssoft Information Technologies   *Malatya, Turkiye*

- Worked in the front-end development team, specializing in React, Vue, Tailwind, PrimeReact, and Shadcn.
- Developed admin dashboards and CRM systems.
- Implemented e-invoicing services used in the field of e-transformation.
- Collaborated with cross-functional teams to design and implement user-centric features, ensuring alignment with business goals and user needs.

PROJECTS

CRM | *React, Next.js, Shadcn-ui, Tailwind CSS, Zustand*   Apr. 2024 – Present

- Developed a Customer Relationship Management (CRM) system to help businesses efficiently manage customer interactions, sales processes, and data.
- Developed various frontend features such as customer data dashboards, sales tracking, and interaction logs to provide a comprehensive CRM tool for businesses.

Bien Dealer Panel | *Vue, PrimeVue, PrimeFlex, Pinia*   Feb. 2024 – Present

- Developed a dealer panel for managing e-transformation credits purchased by dealers, facilitating streamlined credit management and improved operational efficiency.
- Implemented various frontend features such as user authentication, credit management dashboards, and detailed transaction histories to provide a comprehensive management tool for dealers.

I-Uyum / Bien Web Connector | *React, PrimeReact, PrimeFlex, RTK*   Aug. 2023 – Present

- Developed an integration connector for e-Invoice, e-Archive, and e-Dispatch Note programs to streamline the digital documentation process for businesses
- Worked closely with both backend and frontend teams to ensure seamless integration of features, aligning on API endpoints, data structures, and overall project goals
